LOCKDOWN, HOLD AND SECURE, SHELTER IN PLACE PLAN

1) PURPOSE

The level of preparedness to deal with **Lockdown, Hold and Secure, Shelter in Place** by staff members, students and police will have a major impact on the final outcome. Practices for Lockdown, Hold and Secure and Shelter in Place will be held a minimum of twice during the school year.

2) DEFINITIONS

Lockdown - Lockdown is a response to a major incident or threat of school violence within the school, or the immediate area of the school. A Lockdown isolates students, the staff and others from danger by requiring everyone to remain inside the building in secure locations. All staff members within the school are responsible for ensuring that no one leaves the secure locations until the Lockdown is removed by the Principal or police. Staff and students take immediate precautions to ensure safety, taking cover in the closest secure location. The Principal or designate will call 911 and will notify the Board office.

Hold and Secure – Hold and Secure is a response to a threat in the general vicinity of a school and not related to the school. This could be a police pursuit, a crime in progress or an active police search. Staff, students and visitors are considered to be safe inside the school. The school continues to function normally. External doors to the building must be secured as quickly as possible and staff/students/visitors on property must be brought inside the building when safe to do so. Signs indicating a Hold and Secure status must be posted until such time as the situation near the school is resolved. Occupants do not leave the building. The Board office must be notified immediately if a school is placed in a Hold and Secure status.

Shelter in Place - Shelter in Place is a response to an external situation, where it is necessary to keep all occupants within the school, to protect

them from the external risk (e.g., an environmental situation such as a chemical spill or an extreme weather related situation in the neighborhood). Staff and students move freely within the school. Signs are placed on external door windows with school phone number to indicate a Shelter in Place. The Board office must be notified immediately if a school is placed in Shelter in Place status.

3) LOCKDOWN PROCEDURES IN CLASSROOMS, PORTABLES AND WASHROOMS

- a) Staff members will direct students out of hallways to the closest secure classroom, remain with the students, and lock doors to the room. If the door does not lock, the staff will bar the door or move furniture against it. Staff members will assess whether anyone is injured and the severity of the injuries and take appropriate measures to assist the injured without jeopardizing their own safety or that of others
- b) Where there are curtains or blinds, they will be closed and the lights turned off. Students are to move away from doors and windows. In consideration of sight lines into the room, students are usually safest when sitting along the length of the inside wall of the classroom. Students must remain quiet and follow staff or police instructions. The classroom should look and sound empty. Staff members must prepare students for staying in a Lockdown situation for an extensive period of time.
- c) Individuals are to contact the office **ONLY** with vital information regarding the incident; for example: "I see the intruder in the southwest hallway".
- d) Cell phones and text messaging are **NOT** to be used by the staff or by students unless communicating vital emergency information about the incident or calling 911. A ringing cell phone may alert an intruder to a particular location.
- e) Teachers will take attendance in class noting students who are outside the class and any additional students who have entered the room.
- f) Students will not be allowed to use washrooms or lockers. No one will be released, except by direction of the Principal/ designate, or police.

- g) Staff and students need to be moved from washrooms into classrooms/secure areas but not if it means moving into immediate danger.

For elementary schools, it is recommended that plans identify an adult who normally works in close proximity to the student washrooms, to check the washroom(s) prior to locking down themselves, if it is safe to do so. This adult would quickly check both male and female washrooms to which they have been assigned in the planning phase, and take any students found in the washrooms in their classroom(s)/closest secure area to lock down.

- h) Students and staff must not answer the door. If necessary, the Principal will use the master key to enter classrooms and other sites.
- i) All occupants of the building will disregard the fire alarm system and school bells unless fire or smoke is obvious. If fire poses an imminent danger, all occupants will evacuate.
- j) Please note that in the event of an emergency or crisis, public health advice related to COVID-19 may not be achievable based on the response required.

4) LOCKDOWN PROCEDURES IN OPEN AREAS

- a) Lunchroom supervisors will follow these procedures in the cafeteria or lunch room if the Lockdown occurs during the lunch hour or during class changes
- b) Depending on the school plan and the locations and actions of the intruder, consideration must be given to staying inside and hiding, or to the controlled evacuation of students from the cafeteria, library, gymnasium and other open areas of the school to secure areas or to outside of the school, especially if there are doors or windows leading directly to the exterior. Open areas are

the most vulnerable during an emergency situation. The school must have a contingency plan for a Lockdown during a lunch period or class changes when many students are in open areas of the school. It is critical during staff and student training, that everyone understands what to do and where to go in the event that a Lockdown is called and they are in an open area.

5) LOCKDOWN PROCEDURES OUTSIDE THE BUILDING

- a) Staff members will direct students in outdoor areas to immediately take cover. Students must be aware of a pre-planned designated location a safe distance from the school.
- b) Students and staff SHALL NOT ENTER the school. Staff members who are with the students, whether conducting an outdoor class or supervising at recess or the lunch break, shall endeavour to have students remain in the designated area outside and take attendance.
- c) It is also important to have a pre-determined location for parents and the media away from the school building.
- d) When the Lockdown is over, students may be released to parents, and the staff will attempt to monitor student departures.

6) CONFIRMATION OF AN EMERGENCY SITUATION REQUIRING LOCKDOWN

- a) Anyone observing a violent incident or threat to school safety may initiate the Lockdown, or must notify the school office immediately to initiate the Lockdown.
- b) When a violent incident or threat is reported, the staff member in the school office needs to obtain as much detail about the incident or threat as possible from the initial observer. The priority is to confirm that a violent incident is occurring, and then to be able to

direct police quickly to the correct location.

- c) If it is safe to do so, the observer should obtain the following details for the report to the office:
 - d) location and number of suspects;
 - i) if the suspect is moving or stationary;
 - ii) the identity or description of the suspect (build, clothing, etc.);
 - iii) description of weapons;
 - iv) possible motive or threats made; and
 - v) any known injuries and location of casualties.
- e) The observer **shall not confront an armed intruder or suspect.**
- f) If gunshots are heard, or a weapon such as a knife is seen, the staff and students should know to go immediately into Lockdown. A staff member or student would then notify the office to initiate the Lockdown, if possible to do so

7) ANNOUNCING LOCKDOWN FROM OFFICE PA SYSTEM

- a) All staff, especially those working in the main office, should be trained that when information is received in the office of a situation requiring a Lockdown (e.g., a violent incident in progress or weapon observed), whoever receives that information will

immediately activate the school's Public Address (PA) system, announcing the Lockdown.

- b) The staff member receiving the report shall activate LOCKDOWN, call 911, and notify the Principal or designate as quickly as possible, by assigning tasks to different office staff members, if possible.
- c) If there is only one person available in the office, LOCKDOWN shall be initiated before calling 911.

- d) The person receiving the report of a violent incident or threat initiates the LOCKDOWN procedure as follows:
- activates all public address (PA) systems inside and outside the building; and
 - announces clearly and calmly on the public address system.

**“EMERGENCY, EMERGENCY! This is _(give name).
INITIATE LOCKDOWN. I REPEAT, “EMERGENCY,

- e) Upon hearing the LOCKDOWN announcement, the staff will immediately initiate Lockdown procedures. The staff must take into consideration those within a site that may require alternate forms of communication.

8) THE 911 CALL DURING LOCKDOWN

- a) A call to 911 will initiate assistance from police services, as well as fire and ambulance services if required.
- b) The person calling 911 will remain on the line and provide the following information as prompted by the operator:
- c) the caller’s name , the school name and full address;
- d) a description of the situation;
- e) whether anyone is injured and the severity of the injuries; and
- f) a safe route to the building and a safe entrance for police, where police will be met by the Principal or designate (if it is safe to do so).

9) NOTIFICATION OF LOCKDOWN

The Principal and or designate will notify the Board Office who will notify the Bus Company, the After School Program and any user groups, if applicable.

10) ENDING A LOCKDOWN

- a) Plans to end a Lockdown will vary depending on the incident. Conclusion may involve a general announcement via the PA system by the Principal, and or designate, or may involve a room to room visit from police/school administration with some sort of identification process so that occupants of locked rooms know the Lockdown conclusion is authentic.
- b) In all cases where police have responded, plans should clearly indicate that the decision to end a Lockdown shall only be made after approval from the on-scene police supervisor.

11) THE ROLE OF THE POLICE AND EMERGENCY PERSONNEL IN LOCKDOWNS

- a) The police are responsible for responding to and investigating Lockdowns. During a Lockdown, the police will assume command and control of the response and investigation but will liaise and work closely with school administrators throughout the process.
- b) Police services are required to ensure that all members who may be dispatched to a call for service at a school are fully trained in this Lockdown procedure. Police will be met by the Principal or designate at the entrance recommended during the 911 call (if it is safe to do so) and have immediate access to the school plan, including a floor plan of the school.
- c) Police will implement the immediate rapid deployment method to stop the threat. This means that police officers will enter the building immediately.

- d) Police will make the decision as to whether controlled evacuation of a school under Lockdown is a viable option (e.g., in the event of a prolonged situation or a situation where the threat has been contained). Police will direct the controlled evacuation process.
- e) A police command post is the focal point for command and control of the emergency situation by police. This will not be a communication area for parents.
- f) Staff members, students and other occupants of the building need to be aware that any site may contain crime scene evidence. They should avoid tampering with or disturbing evidence. All objects, to the greatest extent possible, should be left exactly as they are found, to assist with law enforcement investigations.
- g) The police will set up a media relations centre in the designated area outside the incident site. The police will handle media relations regarding the incident and police response. The Supervisory Officer or designate will handle media regarding issues dealing with the students and school. It is recommended that media personnel from police and school board share press releases prior to release to the media so that both police and board / school officials are each aware of what the other is saying.

12) FOLLOW-UP TO THE LOCKDOWN INCIDENT

- a) Actions taken following Lockdowns can have a major impact on the well-being of the staff, students and the broader school community. Debriefing should occur in all situations following a Lockdown. The nature and severity of the incident will determine who should be included in the debriefing. In all incidents of a Lockdown which was not a drill, it is recommended that communication with all staff be made at the conclusion of the Lockdown and that communication to parents be sent home at the conclusion of the school day or as soon as possible.

 - iv) coordinating police and school district news releases;
 - v) evaluating the adequacy of the Lockdown plan and making modifications as necessary;
 - vi) identifying lessons learned and developing further preventative measures;

- c) The Board shall provide up-to-date floor plans and the school shall outline safe areas that can be locked and open areas (e.g., gymnasium, library) in the school and shall familiarize staff, students and the police with these areas. It is essential to involve the school custodian in the development of the school plan because of the custodian's detailed knowledge of the building.
- d) It is recommended that floor plans be posted throughout the school and at least at every entry point to the school. Other buildings existing on the school grounds, portables and off-site evacuation locations should also be identified and included with the floor plans. Hard copies of floor plans and if possible, electronic copies should be provided to the police in advance of a Lockdown.
- e) The police will be involved in consulting on the school Lockdown plan, including the provision of feedback on Lockdown drills. The Supervisory Officer must approve any modifications to the Lockdown plan once the plans are on file with the board office and police.
- f) The school's needs include mechanisms to communicate messages to those who may not adequately hear verbal communications and those who may not be readily mobile without assistance. If the school has a child care centre, other tenants, or community groups/individuals using school premises, it is important that the Principal ensure staff members from those organizations are included in the implementation of Lockdown procedures.

14) COMMUNICATING THE PLAN

- a) The school will develop a simple and concise plan outlining the procedures to be followed for Lockdown, Hold and Secure and Shelter in Place. All occasional staff members, volunteers and school visitors must be made aware of the school plans and be provided with poster version of the plans. They must wear visitor name tags at all times and understand that they will be expected

to respond quickly to the direction of the Principal or designate in an emergency situation.

- b) A *Booklet for Emergencies* shall be printed and posted in each classroom, staff room, portables, gymnasium, library, office, computer lab and all other pertinent areas in the school.
- c) School site specific information will be included in the *Booklet for Emergencies*.
- d) The Principal will review, and if necessary, update the *Booklet for Emergencies* annually.
- e) Students must be familiar with the plan and aware of their responsibility to respond quickly and quietly to the direction of the staff during a crisis. Students must be informed that in the event of a Lockdown or Hold and Secure, all students must report to the nearest classroom if they are not able to safely and quickly reach their own classroom. If they are outside at the time of the Lockdown, they must not enter the building.
- f) Parents and guardians need to be aware of the Lockdown, Hold and Secure and Shelter in Place plans and must reinforce with their children the responsibilities of students to follow directions during an emergency. Parents and guardians should encourage their children to disclose any information they may have that could pose a threat to school safety. It is recommended that Lockdown, Hold and Secure and Shelter in Place plan information and the importance of parental support for the plans be sent home in a newsletter at the beginning of the school year.

permitted access to the building or to students until it is determined that it is safe for them to enter.

- i) Emergency plans are of little value in a crisis situation if the plan is not exercised on a regular basis. **The Principal is required to review this administrative procedure and the school Lockdown, Hold and Secure, and Shelter in Place plans with the staff at least twice during each school year.**

15) LOCKDOWN, HOLD AND SECURE AND SHELTER IN PLACE DRILLS

- a) Implementation of the Lockdown, Hold and Secure and Shelter in Place plan is the school's responsibility. Although police will assist with training and drills, the police are unlikely to be in the school at the outset of an incident. The entire staff must be prepared to implement the school plan quickly and effectively. The extent of the impact of the incident will be dependent on the ability of the school to respond as quickly as possible.
- b) The school is required to have a minimum of two practice Lockdown, Hold and Secure, Shelter in Place drills each school year. These practice drills can be held at the same time going from Lockdown to hold and Secure to Shelter in Place. It is an effective practice to conduct one drill with the fire alarm ringing at the time of the drill to reinforce the need to ignore a fire alarm or school bells once a Lockdown is initiated (unless fire or smoke are obvious in which case evacuation should take place).
- c) The Principal and/or designate will plan the Lockdown, Hold and Secure, Shelter in Place drills, ensuring that there are no surprise drills and no secret codes. Drills should be announced as practice drills. The focus is on open sharing of every detail of the school plan so that students can be expected to follow staff directions promptly.
